# ENZO P. DANIELA

## IT Intern / OJT – Backend / Web Development

📞 09633226873          ✉ parane.enzo@gmail.com

## ABOUT ME

Bachelor of Science in Information Technology student with hands-on experience in backend development through academic and personal projects. Focused on building server-side logic, RESTful APIs, and database operations using Node.js, Express.js, MySQL, and Firebase. Uses AI-assisted tools to support frontend implementation while concentrating primarily on backend functionality. Comfortable working on both solo and team-based projects and eager to gain real-world experience as an IT / Backend Developer Intern (OJT).

## ACADEMIC BACKGROUND

Caloocan City Business Highschool| 2020-2022
**Senior Highschool**

STI College Fairview | 2022-present
**College**

## TECHNICAL HIGHLIGHTS

- Built RESTful APIs using Express.js
- Database operations using MySQL & Firebase
- CRUD-based systems (Inventory, Sales, User Management)
- Version control using Git & GitHub

## PROJECTS

**Online Gym Facility Management System With Sales And Inventory**
**Role:** Backend Developer
**Duration:** 2024 – 2025
**Technologies:** Node.js, Express.js, MySQL, Firebase
**Summary:** A comprehensive full-stack gym management system designed to streamline daily operations for fitness centers, including membership management, sales processing, inventory tracking, and real-time analytics.

**STI Grade Calculator (Solo Project)**
**Role:** Full Stack Developer
**Duration:** 2024
**Technologies:** JavaScript, HTML5, CSS3, Local Storage
**Summary:** A specialized web-based grade calculator tailored to STI College's grading system, enabling students to calculate, track, and predict academic performance.

## SKILLS

- Java
- JavaScript
- Express JS
- Node JS
- MySQL
- Firebase
- Git
- GitHub
- Restful APIs

## INTERNSHIP AVAILABILITY

- Required Hours: **486** hours
- Availability: Immediate (ASAP)
- Preferred Setup: On-site / Hybrid
- Area of Interest: Backend Development
