

ENZO P. DANIELA

WEB DEVELOPMENT

INTERNSHIP

Integrated Bar of the Philippines (IBP)

March 2026 – Present

Web Developer Intern | IT support

- Contributed to the development of a Human Resource Information System (HRIS)
- Contributed to the development of a Attendance Monitoring System (AMS)
- Assisted in building a Ticketing Management System for internal operations
- Streamlined employee and administrative workflows
- Provided technical support and system maintenance

PROJECT EXPERIENCE

Online Gym Facility Management System with Sales and Inventory (Capstone)

Aug 2025 - Dec 2025

- Developed and structured **20+** backend route modules implementing RESTful APIs for membership management, ecommerce operations, payment processing, equipment tracking, reservations, and customer inquiries using Node.js and Express.js.

Attendance Monitoring System (for IBP Events)

May 2026

- Collaborated in the development of an attendance monitoring system for organizational events and conferences, supporting **140+** local and international delegates.
- Contributed to implementing attendee registration, QR/code-based attendance logging, real-time monitoring, and attendance reporting features.
- Improved attendance monitoring efficiency and achieved approximately **95%** attendance tracking accuracy through automated reporting and monitoring processes.

Ticketing System (for IBP)

March 2026

- Collaborated with a team to design and develop a ticketing system for IBP to manage and track organizational concerns and facility-related issues. Contributed to implementing features such as ticket creation, status tracking, and resolution management, improving workflow efficiency and internal communication.

STI Grade Calculator (Solo Project)

Sept 2025 - Oct 2025

- Built a custom web application that calculates a student's grade based on the STI Fairview grading scale (**Prelims 20%, Midterms 20%, Pre-Finals 20%, Finals 40%**).

EDUCATION

Caloocan City Business High School (With Honors)

June 2020 - July 2022

Strand

- Technical-Vocational-Livelihood - Information and Communications Technology

STI College Fairview

Aug 2022 - Present

Course/Program

- Bachelor of Science in Information Technology (BSIT)

AI-ASSISTED DEVELOPMENT TOOLS

- Claude, GitHub Copilot, Antigravity

TECHNICAL SKILLS

- **Technical Skills:** JavaScript, Java, TypeScript, Node.js, Express.js, MySQL, Firebase, Supabase
Docker
