BACKEND | WEB DEVELOPER

SUMMARY

Bachelor of Science in Information Technology student with foundational experience in backend development. Familiar with Node.js, Express.js, MySQL, and Firebase, and have built RESTful APIs, CRUD systems, and basic authentication features through academic and internship projects. Continuously learning and improving as an aspiring Backend Developer.

INTERNSHIP EXPERIENCE

IT Intern – Networking and Backend developer - Metropolitan Manila Development Authority (MMDA) **Feb 2025 – Present**

- Developed 15+ RESTful API endpoints for membership, sales, and inventory systems using Node.js and Express.js.
- Designed and managed a MySQL database with **500+** records.
- Reduced manual inventory tracking time by 40% through automation and Firebase synchronization.

PROJECT EXPERIENCE

Online Gym Facility Management System with Sales and Inventory (Capstone) **Aug 2025 - Dec 2025**

- Developed and structured **20+** backend route modules implementing RESTful APIs for membership management, ecommerce operations, payment processing, equipment tracking, reservations, and customer inquiries using Node.js and Express.js.
- Designed and managed a relational MySQL database with **14** interconnected tables supporting users, products, orders, payments, reservations, equipment maintenance, and sales statistics with full CRUD functionality.
- Implemented backend pagination, automated expired product checks, reservation handling with Firebase integration, and real-time notification logic to improve system efficiency and scalability.

STI Grade Calculator (Solo Project) **Sept 2025 - Oct 2025**

- Built a custom web application that calculates a student’s grade based on the STI Fairview grading scale (**Prelims 20%, Midterms 20%, Pre-Finals 20%, Finals 40%**).
- Implemented real-time computation logic that outputs the corresponding GPA and grade remark, eliminating manual grade calculation errors and improving speed of result interpretation.
- Designed a responsive user interface with clean form inputs and clear grade breakdown feedback to enhance usability across devices.

EDUCATION

Caloocan City Business High School (With Honors) **June 2020 - July 2022**
Strand

- Technical-Vocational-Livelihood - Information and Communications Technology

STI College Fairview **Aug 2022 - Present**

Course/Program

- Bachelor of Science in Information Technology (BSIT)

TECHNICAL SKILLS

- **Technical Skills:** Java, JavaScript, Node.js, Express.js, MySQL, Firebase, RESTful API Development, CRUD Operations, Database Integration, Git, GitHub
- **Languages:** Filipino, English
